

Press release

March 2017 | Munich

PULS products now available from Digi-Key

Digi-Key's worldwide customers have now a fast and easy access to AC/DC and DC/DC converters of the DIN-rail power supply specialist PULS.

The power supplies and matching supplementary modules are now in stock at Digi-Key and available for immediate shipment.

"We are excited to work with Digi-Key to offer PULS products worldwide to their broad customer base," said Matt Biskner, L.P. President & General Manager at PULS. "Digi-Key's knowledgeable technical support, excellent customer service, and global presence combined with PULS' extensive offering of the world's most efficient DIN rail power supplies should enable more design engineers to select the best PULS power supply for their individual application requirements."

The broad PULS product portfolio offers a suitable power supply solution for a wide variety of applications. All PULS products feature remarkable values in efficiency, size, reliability, and lifetime.

"We are thrilled to partner with PULS, and to leverage their engineering knowledge, resources and energy to continue to offer our customers the highest quality and efficiency DIN-rail power supplies available in the industrial power market," said Tom Busher, VP, Global I P & E at Digi-Key. "Engineers and Technicians now have access to a broad product offering that will allow them to select the best solution for their power applications and projects."

More information

For more information about the PULS product listing, please visit the [PULS Supplier Center page](#) on the Digi-Key website.

About PULS:

PULS is the only company in the world that concentrates entirely on the design and manufacturing of DIN-rail power supplies. We combine all our engineering knowledge, our resources and energy into being world class in this field. This focus sees us setting the standards in terms of efficiency, dimensions and reliability with our [DIMENSION](#), [PIANO](#) and [MiniLine](#) product families.

About Digi-Key Electronics

Digi-Key Electronics, headquartered in Thief River Falls, Minn., USA, is an authorized global, full-service distributor of [electronic components](#), offering more than five million products, with over 1.3 million in stock and available for immediate shipment, from over 650 quality name-brand manufacturers. Digi-Key also offers a wide variety of online resources such as [EDA and design tools](#), datasheets, [reference designs](#), instructional articles and videos, [multimedia libraries](#), and much more. Technical support is available 24/7 via email, phone and webchat. Additional information and access to Digi-Key's broad product offering can be found by visiting www.digikey.com.
